**INTERVIEW SUMMARY AND SUBMISSION WITH RCE UNDER 37 C.F.R. §1.114**

**Mail Stop RCE**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

This paper is submitted pursuant to the RCE filed concurrently herewith under 37 C.F.R. 1.114 and Notice of Appeal received by the Office on February 28, 2005; and is responsive to the Office Action dated September 23, 2004. A Petition for Extension of Time and payment of fees for the extension and RCE is attached. Should any additional fees become due in connection with this paper consider this paragraph a request and authorization to withdraw the appropriate fee under 37 C.F.R. §§ 1.16 to 1.21 from *Fulbright & Jaworski, L.L.P.* Account No. 50-1212/ASGR:002USD1.

Reconsideration of the application is respectfully requested.

## **INTERVIEW SUMMARY**

On June 15, 2005, Applicant's undersigned representative spoke with Examiner Para and Examiner Kubelik regarding the Notice of Abandonment mailed June 9, 2005. Applicants pointed out that the Notice of Abandonment was improperly issued in view of the twice rejection of the claims under 35 U.S.C. § 103 and Notice of Appeal dated February 23, 2005. The Examiners indicated that the Abandonment was initially sent on an understanding that the claims need be twice rejected on identical grounds to permit appeal under 35 U.S.C. § 134(a). It was recommended that Applicants discuss the matter with USPTO employee William Dixon. Applicants representative subsequently spoke with Mr. Dixon on June 16, 2005 and conveyed that the grounds of rejection need not be identical under 35 U.S.C. § 134(a). Mr. Dixon did not disagree and indicated that he would discuss this further internally.

On June 28, 2005 Applicants spoke with Examiner Kubelik regarding the Notice of Abandonment. The Examiner confirmed that the holding of abandonment should not have been sent and would be withdrawn. The Notice of Abandonment is therefore believed moot.

## **SUBMISSION AND RESPONSE TO OFFICE ACTION**

### **A. Status of the Application**

A Notice of Appeal was filed on February 23, 2005 and received by the Office on February 28, 2005. An Amendment and Response to Office Action was filed concurrently with the Notice of Appeal and is believed to have been entered. To the extent the paper has not already been entered, entry is respectfully requested pursuant to 37 C.F.R. §1.114. The current paper is in supplement to the earlier-filed Amendment and Response to Office Action Response and is responsive to the Office Action of September 23, 2004.

As explained above, a Notice of Abandonment was mailed in the case on June 9, 2005. The supervisory examiner has indicated the Notice of Abandonment had been sent in error and is being withdrawn and thus it is believed that the Notice is now moot.

### **B. Rejection Under 35 U.S.C. §112, First Paragraph – Written Description**

The Action rejects claims 1, 2, 4-10 and 13 as lacking an adequate written description. In particular, the Action asserted a failure to adequately describe the invention because: (1) a lack of seed deposit comprising genes conferring resistance to glyphosate and glufosinate opens the possibility that the Applicants did not have possession of the claimed invention; and (2) the Applicants fail to describe which gene sequences encode proteins that confer resistance to glyphosate and glufosinate other than those described by U.S. Patent No. 6,177,617 and No. 5,710,368. It was additionally stated that a skilled artisan would not have recognized that Applicants were in possession of any other nucleic acid sequences that would encode polypeptides that confer resistance to said herbicides because a core polypeptide sequence and a
